

Enterprise systems built to last.

Since 1989, TechnoNet has built and supported mission-critical systems for government and enterprise across Malaysia and Brunei. Today we combine that engineering with private AI and modern digital platforms.

Company details

Legal name	TechnoNet Sdn Bhd
Company no. (SSM)	198901005373 — founded in Malaysia, 1989
Brunei registration	AGO/RC/6266 — registered 2004
SST registration no.	B16-1808-31025139
Malaysia office	A-10-2, Plaza Kelana Jaya, Jalan SS 7/13A, 47301 Petaling Jaya, Selangor, Malaysia
Brunei office	204-B, Bangunan Jubilee Plaza, Jalan Kg Kianggeh, Bandar Seri Begawan BS8111, Brunei Darussalam
Contact	sales@technonet.ai (projects, tenders and procurement) · support@technonet.ai · WhatsApp 019-328 2828 · technonet.ai

What we do

- **Enterprise software** — Custom systems for complex operational, regulatory and institutional work.
- **Government digital systems** — Licensing, regulatory, workflow and public-service platforms.
- **System modernisation** — Modernise and extend long-running systems without losing continuity.
- **Integration** — Agency, payment, API and data integration — SSM, Customs, FPX, LHDN MyInvois.
- **Private AI** — On-premise AI and document intelligence for controlled environments (EMAS).
- **Support and continuity** — Production support and enhancement for systems meant to stay in service for years.

Track record

JKKP — Department of Occupational Safety and Health SKUD, then MySKUD	1999–2026 (27 years)	National safety licensing gateway, with more than 50 application types.
---	----------------------	---

Products

EMAS — private AI, installed on the customer’s own infrastructure

KnowledgeCore	Document intelligence: accurate, cited answers from your own documents.	Live	knowledgecore.emas.ai
AuditCore	AI compliance scanning for websites and codebases, with 222 checks across 15 profiles.	Live	auditcore.emas.ai
DecisionCore	Formal, auditable explanations for automated decisions.	Live	decisioncore.emas.ai
GrowthCore	Self-hosted sales and marketing automation.	Coming soon	knowledgecore.emas.ai/contact.html

Business platforms

LexBill	Legal billing for law firms, with LHDN e-Invoice built in.	Live	lexbill.technonet.ai
ProjectCore	From tender to delivery, with fair and modern staff performance tracking.	Pilot	projectcore.technonet.ai
Gold ERP	Inventory, POS and reports for gold shops, on an Android tablet; hosted by TechnoNet.	Live	gold.emas.ai

How we work

Security

HTTPS everywhere; public traffic through an encrypted Cloudflare tunnel; internal services not published; nightly backups of hosted services to separate storage; tested, approved and version-controlled releases. Details: technonet.ai/trust/security

Responsible AI

Private by design; people make the decisions that matter; accuracy figures published with their method. Our engineers use AI development tools, including Anthropic’s Claude, and review and test every change. Details: technonet.ai/trust/responsible-ai
